Professional Summary

SQA Engineer with hands-on experience in manual testing, API testing, and test automation using Pytest, Selenium WebDriver, and Postman. Skilled in test case design, defect lifecycle management, and bug tracking with Jira. Experienced in REST API validation, regression testing, and automated reporting with Allure. Proven ability to deliver software quality in Agile environments through structured testing processes.

Experience

StreetLens LLC, USA **October 2025 – Present**
Software QA Engineer (Remote)
- Performed manual testing and API testing using Postman across web application features and backend endpoints.
- Designed and executed test cases from SRS/BRS; identified, documented, and tracked defects with clear reproduction steps.

Business Automation Ltd. **Jan 2024 – Apr 2024**
Full-Stack & QA Intern
- Performed API testing with Postman and executed functional test cases based on SRS documentation.
- Tracked defects, validated bug fixes, and collaborated with development team using Git and GitHub.

Projects

Robust REST API Automation Suite | GitHub **Pytest, Requests, Allure**
- Developed a REST API automation framework using Pytest and Requests to validate API responses, status codes, and JSON schemas with Allure reporting for continuous regression testing.

AuthFlow-REST-API | GitHub **PHP, JWT, Postman**
- Developed and tested a secure REST API authentication system with JWT-based login, registration, and Role-Based Access Control (RBAC); validated all endpoints using Postman.

Automated API Testing | GitHub **Postman, Newman, JavaScript**
- Built an automated REST API testing suite using Postman and Newman, validating 20+ endpoints including negative test cases with HTML Extra reporting, reducing manual testing effort by 40%.

E-commerce Project | GitHub **HTML, CSS, JavaScript, PHP**
- Developed and performed functional testing on a full-featured e-commerce website validating user registration, dynamic product catalog, cart functionality, and secure payment integration.

UI Automation - Teacher Module | GitHub **Selenium, python**
- Developed an end-to-end UI automation framework using Selenium and TestNG to validate key workflows of the Teacher Module, enhancing test efficiency and regression coverage.

Technical Skills

Testing Tools & Frameworks: Postman | Newman | Selenium WebDriver | Pytest | Allure Reporting

Testing Skills: Manual Testing | API Testing | Automation Testing | Regression Testing | Functional Testing | Black-box Testing | Test Case Design | Test Execution

Bug Tracking & Collaboration: Jira | Trello | Defect Lifecycle Management

API & Database: REST API | CRUD Operations | HTTP Status Codes | JSON Validation | MySQL | SQL Queries

Programming Languages: Python | JavaScript | PHP | C++

Version Control: Git | GitHub

Problem Solving: Solved 680+ coding problems (Codeforces: 500+, LeetCode, VJudge) and participated in 20+ contests

Education

Noakhali Science and Technology University **Jan 2020 – Aug 2025**
B.Sc. in Information and Communication Engineering *CGPA: 3.51 / 4.00*

Training & Certifications

QA Engineering Bootcamp 2026 – Astha IT

Software Development Internship – Business Automation Ltd.

Data Analysis with Python – EDGE

Intra University Programming Contest – ICE Tech Combat

Google Drive Link: View All Certificates

Leadership & Activities

Class Representative (2023 – 2025)

ICE Programming Club – Public Relations Secretary (2024 – 2025)

Prothom Alo Bondhusova – Vice President (2024 – 2025)

ICE Welfare Club – Vice President (2024 – 2025)
